This document is simply to outline the specifics, pertaining to the mandate, of Elevation Music Studio development sessions and expectations:

It is important to understand that simply giving vocal lessons is not the goal of EMS. Our goal, as a Recording Studio, is to develop, nurture and mentor **Junior Artists**, whether their development is of a professional, or vocational, nature, and give them hands-on, transferrable, industry-experience, and at no additional expense, other than the cost of your development session.

RECORDINGS & VIDEO

Each **Junior Artist** is given the opportunity to build an online digital portfolio of **recordings**, and **music videos**, as a part of their development. Regardless of the career path of individuals, these projects are great for character building, social development, and self esteem. Some sessions will involve the **Session Engineer** sitting with **Junior Artists** to complete the audio, music and/or video projects with them present, so they can experience the process first-hand, and have input on their finish product. **It is important to note that there is setup time involved in this activity, and it will occur within the session period. Junior artists are responsible for choosing their material, and coming prepared to perform said material, as well as prepared with lyrics, or any visual aid, needed to complete recordings. Physical copies are not issued to artists.**

LIVE PERFORMANCES

These live shows are set up in two different formats

- **A: Live show in a private chartered venue:** This type of show is for Junior Artists and close family members, or by invitation only. This aids in us building the EMS community and giving those, who are new to performing, the opportunity to do so in a safe and controlled environment.
- **B: Live shows in a public orientation:** These shows are marketed and promoted to the public and are ticketed, to allow each Junior artists the opportunity to have a sense of ownership, learn a bit about marketing and sales, and proper use of social media.

IMPORTANT NOTE: Junior artists earn a minimum of \$5.00 for each ticket they sell, and there is no additional cost, however it does count as a development session. _____ initial

RECORDING PROJECTS

These projects are created to enable junior artists to channel their creativity. In these projects junior artists are required to: create their own original material; create covers of existing material which are marketed to online formats such as iTunes, Spotify Google play. **IMPORTANT NOTE: Unless an Elevation Music Studio engineer assists in the writing, or re-writing, of the song (writer of the music referred to as author) then the junior artist retains 100% of the rights as author. Elevation Music Studio will create the music (referred to as composer) and will also retain 100% Of the rights to said composition. Should something extravagant occur with the finished project (work), the profits will be split 50/50 between Elevation Music Studio and the Junior artist.** _____ initial

Development session fees (lesson fees) do not cover Audio Production, Video Production or Live Performances, these are all extra services provided by EMS as a courtesy to you, our valued Artists and clients. Elevation Music Studio retains the ownership and rights to all recorded material, and media, created by EMS. Signing this agreement indicates that you have read, understand and agree with all the above.
